

Licensed Graduate Supervision Program

We're Hiring!

Are you ready to complete your 2,000 post-graduate clinical hours while learning how to build your own private practice? If so, we would love to connect.

Take a look at our practice online. If it feels like a good fit, please send an email to info@tamiabarnes.com to learn more about available supervision opportunities.

Responsive & Interactive Support

Need to communicate about client care, clinical questions, or referrals? We use the Slack app to create a streamlined and confidential way for supervisees to stay connected, ask questions, and receive support between supervision sessions.

Competitive Compensation

We value the work you do and offer a competitive pay structure for clinicians in training.

- Pay Range: \$70–\$100 per clinical hour/session
- Free Weekly or Biweekly Supervision included
- Supervision designed to help you gain insight from an experienced clinician while meeting Maryland state licensure requirements

Position Options

- 1099 Contractor Positions
- Part-Time W-2 Positions Available

Expand Your Professional Scope

Interested in starting your own private practice one day?

Supervisees in this program also receive guidance on business development, including how to establish and grow a private practice as part of their professional development.

Preparing You for Full Licensure

The goal of this program is to support you in successfully completing your 2,000 supervised clinical hours and preparing you to submit your final licensure application to the State of Maryland.

If you are looking for quality supervision, professional growth, and guidance on building your career as a clinician, we encourage you to reach out.
